

# DUCT MOUNTED LINT FILTERS

Single Dryer Applications | OPL  
Self or Manual Cleaning

## The Simple Solution to Dryer Lint Problems

Energenics duct-mounted lint filters are designed to capture up to 98% of lint that bypasses standard dryer lint screens. Installed directly into the dryer exhaust duct, these filters help improve dryer performance, reduce fire risk, and keep your facility and surrounding areas clean.

## Typical Problems Solved

- Dryer inefficiencies caused by lint buildup in ducting
- Unsightly lint accumulation around building exterior and in landscaping
- Fire risk caused by lint buildup in ducting
- Damage to other equipment caused by lint buildup

## Features and Benefits

### Easy Install

- Installs directly into existing dryer ducting
- Available in multiple sizes to match airflow

### Cost Effective Operation

- Utility free (no additional power required)
- Minimal maintenance

### Improves Safety

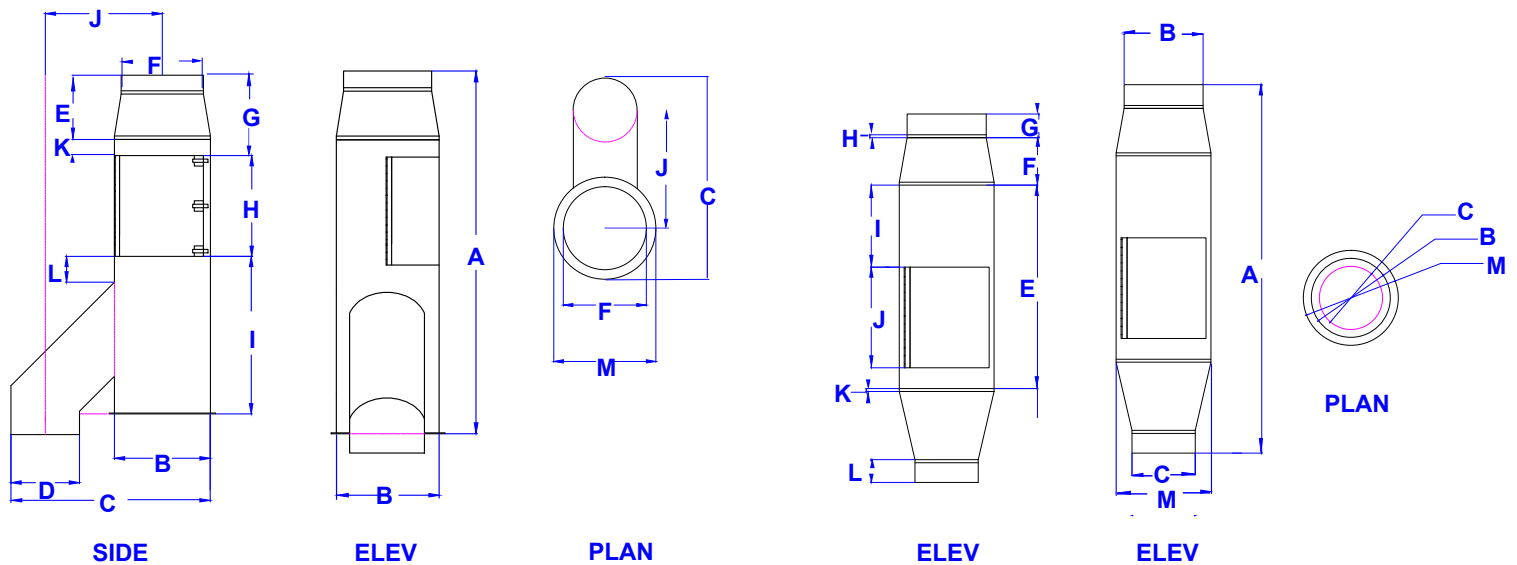

- Helps reduce risk of dryer duct fires
- Battery-powered pressure alarm included

### Cleans and Protects

- Keeps exterior free of lint buildup
- Helps protect air handling equipment

## Ideal Applications

Designed for **On-Premise Laundry (OPL)** and **single dryer exhaust systems**, including:

- Hotels and Hospitality
- Healthcare and Nursing Home Facilities
- Fire Departments / Correctional Facilities
- Commercial and Industrial Single Dryer Systems

## Model Types

### AF-S

- Self Cleaning Model
- Mounts Vertically in Ducting
- Optional Fire Suppression
- Lowest Maintenance

### AF-M

- Manually Cleaned Model
- Mounts Any Direction
- Optional Fire Suppression
- Low Maintenance

**Optimize Your Dryer Exhaust System Today!**
