

HYPOCHLOROUS ACID DISINFECTION CHAMBER

HIGHLY EFFECTIVE AGAINST BACTERIA, VIRUSES, AND SPORES (C-DIFF)

Hypochlorous Acid (HOCl) Cart Chamber

Product Information

- Self-Generating Chemical Disinfection Chamber
- Faster Treatment Cycle
- Low Water Consumption (< 1gal/cart)
- Appropriate For All Cart Types
- Rugged, "Laundry-Proof" Design
- Built-in Sump or Pit (standard) Installation

- **A non-toxic, no-rinse disinfectant 80-100 times more powerful than liquid bleach**
- **Eliminates harmful pathogens in seconds, with no lengthy dwell time needed**
- **Operating costs of ~3 cents per cart, significantly lower than those of purchased chemicals**

Technical Data

- UL Listed Controls and Components
- Electric: 240/60/3 40 FLA, or 480/60/3 20 FLA, and 120/60/1 = 20 FLA (for chemical generator)
- Water*: 1/2" NPT, 10 GPM @ 35 PSI (*cold & softened)
- Compressed Air: 1/2" NPT, 2 CFM @ 80 PSI
- Standard 1-Year Warranty
- Factory Start-Up Included
- Fully Assembled and Tested

Safety

- Fully Contained Disinfection System
- 100% Natural Solution, Eco-Friendly, Non-Bleaching
- User-Friendly HMI, E-Stops, Interlock Shutoff
- Easily Accessible Service Components

Construction

- Heavy Gauge Stainless Steel Build
- Insulated Dual Wall Construction
- Automatic Door Operation (standard)
- Optional: Single Door Operation (w/out Eject)
- Optional: Roof-Mounted Blower Drying Assist

**Call for additional information or
to ask about our UV-C
disinfection options!**
